

BIO MOTOR
(An exclusive NDW - story)

Allemagne
9828

A universal novel apparatus of greatest clinical significance. The four-fold apparatus is a completely novel German construction. 4 Patients can be treated simultaneously. The apparatus is being introduced in all German mines for first-aid in cases of mass gas - and smoke - poisoning.

The apparatus is of particular importance for the treatment of infantile paralysis and was used with great success during last years epidemic in Rhineland-Ruhr. Also in a number of other ailments the apparatus has proved to be a lifesaver - and even a lifegiver to infants in the first precarious minutes of life.

On New Year's Eve the mechanic Max Müller of the Rheinisch Electricity Works touched high tension wires and was freed after two minutes. However, heart and lungs had stopped working. The BIO MOTOR was applied after 10 minutes of first-aid treatment for an initial period of 2 1/2 hours. The man came back to life after 9 hours.

MAURICE AND MAY

An exclusive NDW-story.

Another novel circus attraction in Munich's famous Cirkus Krone. An intriguing and genuinely comical fight with the bicycle. The clown and his shattered two-wheeler make the audience roar with laughter. Isn't everybody on some kind of terms with a bike? Maurice never gives up, however flexible and uncontrollable such an attraction can be. But when the saddle becomes independent, everything is on a higher level - Maurice remains as unperturbed as ever - up go the chain. The pedals and the handlebars!

Bob - Scooters

A novell for winter sports fans - a bobsleigh on two skis or better a ski-scooter. In the mountain village of Fischbachau there was great fun during the first competition of bob-scooters.

Ertl Benz was the winner of the day.
