T-3 DOCTOR FOR SMALL FISHES

A home of Mr. Hidenosuke Tanaka in Yokohama is almost like a private ~~spark~~ aquarium! And in his home many kinds of various fishes mostly of fresh water type are living in not for the public but for Mr. Tanaka, the fish lover only!

This is chief of this small aquarium and, as usual, today, too, he is feeding these fishes the nice foods.

As he is the director of the aquarium, he is also a medical doctor specialized on fishes. And always these pretty patients are brought

in to receive medical cares from him.

And, of course, he eagerly anticipates in examination of symptoms ~~in~~ holding the sick fish in his hand.

Well, this small lovely fish receives medical treatments to his wound in the mouth. And the doctor uses the special instruments for every patients.

Now small ~~knowledgeable~~ gibel is put on the tiny operating-table and he is ready to have the operation on his wounds on his scales.

And the operation is over now, and he is all right!  
In this hospital everything has been completely prepared for like every A-class hospital for ~~the~~ men. And even ~~the~~ specially made artificial respiration gadget is arranged for these patients in the water.

In this hospital, very rare Mori-aogaeru, a tiny green frog that has very strange habits gave a birth to this small baby frog.

He is given the artificial feedings by the doctor with the aid of injection needle, and in these days he has grown up to the size of barely a fingertip.
